## **PUBLIC ANNOUNCEMENT**

**July 21<sup>st</sup>, 2025**

The Township of Baldwin is aware of the recent article that has been published by John Degen of Shore Report and would like to take a moment to directly address our residents.

We want to assure everyone that the Township of Baldwin remains in a stable financial position. Each year, we undergo a comprehensive financial audit conducted by certified auditors. These audits consistently confirm that the Township is managing its finances responsibly and remains in a healthy financial state.

The portion of roads listed in poor repair were recently hard surfaced following the asset management plan to maintain a high quality of roads and level of service within the Township.

We understand that headlines can cause concern, but we remain committed to transparency and fiscal accountability.

Thank you for your continued trust and support.

— The Township of Baldwin Staff & Council
